

Commitment to Compliance to the Regulation on Persistent, Bioaccumulative and Toxic (PBT) Chemical Substances under TSCA (Toxic Substances Control Act) Section 6(h) of the EPA (Environmental Protection Agency) of January 6th, 2021

On the basis of the declarations issued by the suppliers, Sauro
declares

that all the parts supplied from Sauro s.r.l. do not contain any PBT substances listed in the TSCA Section 6(h) and that these substances are not intentionally added during our process:

- 1) 40CFR751.405: decaBDE (Decabromodiphenyl ether). It is used to make plastics hardly burn.
EC Number is 214-604-9.
- 2) 40CFR751.407: PIP (Phenol, isopropylated, phosphate (3:1)). It is used to make plastics to have better plasticity and hardly burn.
EC Number is 273-066-3.
- 3) 40CFR751.409: 2,4,6-TTBP (2,4,6-Tri-tert-butylphenol). It is added to rubbers not to be oxidized and far from aging.
EC Number is 211-989-5.
- 4) 40CFR751.411: PCTP (Benzenethiol, 2,3,4,5,6-pentachloro). It is used to improve rubbers characteristics.
EC Number is 205-107-8.
- 5) 40CFR751.413: HCBd (1,3-Butadiene, 1,1,2,3,4,4-hexachloro-). It is used to improve rubbers characteristics.
EC Number is 201-765-5.

Since the presence of the substances is not be expected, their absence has not been detected by tests.

This declaration has been prepared and issued on the basis of currently applicable Laws and Regulations and our best knowledge and expertise currently available; the addressee or recipient is advised to regularly request updates hereof.
