

Occluders could be the right solution in order to close the wire entry on screw type terminal block or to impede the plug-header connection. Customer can buy occluders on their own or already inserted in the product according to the customer's configuration. They are made of PA 6.6 Polyamide material, which is:

- phosphorus, dioxins, halogens and antimony trioxide free, all detrimental substances
- resistant to chlorinated solvents
- VO class self-extinguishing according to UL94

The standard color is green, but it is available also in different colors.

Colors available:

Green similar to RAL 6032, Black similar to RAL 9005, Dark gray similar to RAL 7040, Light gray similar to RAL 7035, White similar to RAL 9001, Blue similar to RAL 5012, Yellow similar to RAL 1018, Orange similar to RAL 2003, Red similar to RAL 3017, Brown similar to RAL 8028

Occluder
OCL-PSQ-V - pcs/pack 500
 The OCL-PSQ-V occluders can be used with the PSQ plurima and MSQ terminal block series.

Occluder
OCL-CIM-V / OCL-CIM-V01 - pcs/pack 500
 The OCL-CIM-V / OCL-CIM-V01 occluders can be used with the CIM header series.

Occluder
OCL-PSM-V - pcs/pack 500
 The OCL-PSM-V occluders can be used with the PSM plurima, MSM and MSS terminal block series.

Occluder
OCL-MTS-V - pcs/pack 500
 The OCL-MTS-V occluders can be used with the MTS terminal block series.

Occluder
OCL-MSB-V - pcs/pack 500
 The OCL-MSB-V occluders can be used with the MSB terminal block and PSB plurima series.

Occluder
OCL-MTB - pcs/pack 500
 The OCL-MTB-V occluders can be used with the MTB terminal block series.
